1. INFORMATION SUMMARY (cont'd)

**All fees, charges and expenses mentioned in this section are
exclusive of any taxes or duties as may be imposed by the
government from time to time.**

2. DETAILED INFORMATION OF THE FUND (cont'd)

2.1 Listing of the Fund

The Manager has obtained Bursa Securities' approval for the admission to the Official List of Bursa Securities and the listing of and quotation for up to 10 billion Units on the Main Market on 7 January 2008.

Pursuant to Section 14(1) of the Central Depositories Act, Bursa Securities has prescribed the Units as prescribed securities. In consequence thereof, the Units will be deposited directly with Bursa Depository and any dealings in the Units will be carried out in accordance with the Central Depositories Act and the rules of Bursa Depository.

2.2 Investment objective of the Fund

The Fund is designed to provide investment results that closely correspond to the performance of the Dow Jones Islamic Market Malaysia Titans 25 Index, regardless of its performance.

The Manager attempts to achieve an absolute value of tracking error of less than 3% between the NAV of the Fund and the Benchmark.

Any material amendments to be made to the investment objective of the Fund would require a resolution passed by not less than two-thirds (2/3) of all the Unitholders at a Unitholders' meeting held in accordance with the Deed.

2.3 Investment policy of the Fund

Unlike the majority of investment funds where their investment portfolio management includes considerable discretion and an active, ongoing selection of investments (based on economic, financial and market analysis), the role of the Manager of MyETF-DJIM25 is essentially passive. The responsibility of the Manager is to reflect changes in the Dow Jones Islamic Market Malaysia Titans 25 Index (insofar as practicable and in accordance with the provisions of the Deed) by replicating changes to the weightings and compositions of the constituent shares in the Benchmark in the Fund's portfolio of shares.

Since the investment objective of the Fund is to provide investment results that closely correspond with the performance of the Benchmark, the Manager is required to ensure (insofar as practicable and in accordance with the provisions of the Deed) that the Fund Assets comprise only, or substantially only, interest in the Index Shares in substantially the same weightings as they appear on the Benchmark.

The Manager may use techniques including indexing via full or partial replication and/or invest in certain Authorised Investments, in seeking to achieve the investment objective of the Fund, subject to conformity to the Shariah principles.

Other than cash held for distribution and to meet the Fund's fees, expenses and other liabilities, it is unlikely that cash or any other form of securities will form a substantial part of the Fund Assets.

2.4 Investment scope and restrictions**2.4.1 Investment scope**

The Manager is authorised to invest in the following types of assets or instruments subject to the investment restrictions set out in Section 2.4.2 below:

- (i) Index Shares;
- (ii) Former Index Shares PROVIDED THAT such Former Index Share shall only be held for such period after it ceases to be an Index Share as the Manager, in consultation with the Trustee, determines is necessary to dispose off and replace or substitute such Former Index Share;
- (iii) Non-Index Shares PROVIDED THAT:
 - (a) the value of such Non-Index Shares shall not, at any time, exceed 5% of the value of the Fund or such other percentage as may be approved by the relevant authorities;
 - (b) such Non-Index Share has a high correlation to one or more of the Index Shares that is substituting; and
 - (c) the Manager deems that such Non-Index Shares are appropriate substitutes given the liquidity constraints with the Index Shares which may have a negative impact on the in-kind creation or redemption activity;
- (iv) any Islamic collective investment scheme PROVIDED THAT:
 - (a) the value of such Islamic collective investment scheme shall not, at any time, exceed 10% of the value of the Fund; and
 - (b) such Islamic collective investment scheme is in compliance with the constraints methodology of the Fund;
- (v) any other investments not covered by paragraphs (i) – (iv) above, as determined by the Manager, approved by the Trustee and Shariah Adviser, and in accordance with the ETF Guidelines; and
- (vi) any securities or investments not falling within paragraphs (i) – (v) above, which are received by or distributed to the Fund by way of a capital distribution, a distribution of dividends in specie or any other distribution in relation to the investments set out in paragraphs (i) – (v) above, PROVIDED ALWAYS that any such securities shall be disposed off by the Manager as soon as reasonably practicable.

As a general rule, the Fund will adhere to the following asset allocation:

- (i) at least 90% in Index Shares; and
- (ii) not more than 10% in cash or cash equivalents.

2. DETAILED INFORMATION OF THE FUND (cont'd)

The Fund's investment scope may include Shariah-compliant securities and investments other than Index Shares in order to facilitate the Fund's portfolio rebalancing activities as well as to provide for situations when securities or cash is received from the Fund's investments, by way of capital distribution, distribution of dividend in specie or in cash.

2.4.2 Investment restrictions

The investment restrictions imposed upon the Fund are as follows:

- (i) the Fund may invest in units/shares in other Islamic collective investment schemes ("**Target Fund**") provided that the investment must not exceed 20% of the NAV of the Fund based on the most up-to-date value of the Fund Assets and such Target Fund must:
 - (a) be regulated by a regulatory authority;
 - (b) where the Target Fund is constituted in Malaysia, be approved by the SC;
 - (c) where the Target Fund is constituted outside of Malaysia, be registered, authorised or approved by the relevant regulatory authority in its home jurisdiction; and
 - (d) operate on the principle of prudent spread of risk and its investments do not divert from the general investment principles of the ETF Guidelines.

Where the Fund invests in Target Fund operated by the Manager or its related corporation, the Manager must ensure that:

- (a) there is no cross-holding between the Fund and the Target Fund;
 - (b) all initial charges on the Target Fund are waived; and
 - (c) the management fee must only be charged once, either at the Fund or the Target Fund.
- (ii) The Fund must not invest in Islamic derivatives.
- (iii) The Fund must not make investments in foreign markets.

- (v) The Fund must not participate in securities lending or Islamic Securities Selling and Buying-Negotiated Transaction activities.

Further, the Fund is governed by the Shariah Investment Guidelines which are established and endorsed by the Shariah Adviser and is set out in Section 2.5 of this Prospectus.

2.5 Shariah Investment Guidelines

The Shariah Investment Guidelines (which are in compliance with the SC SAC's Shariah criteria) and also incorporates stock screening methodology of the Dow Jones Shariah Advisory Board (2.8 (iii) *Dow Jones Islamic Market - Shariah Compliance Screens*) established and endorsed by the Shariah Adviser for the Fund, are as follows:

- 2.5.1 As a general rule, the Fund can only invest in securities and financial instruments that comply with the Shariah principles and is prohibited from investing in securities and financial instruments which do not comply with the Shariah principles.
- 2.5.2 The Fund shall invest in securities listed under the List of Shariah-compliant Securities by the SAC of the SC.
- 2.5.3 The Fund shall invest in domestic Islamic collective investments schemes.
- 2.5.4 The Fund shall invest in Islamic Deposits which placements are made with financial institutions licensed under the Islamic Financial Services Act 2013 and/or Financial Services Act 2013, whichever is appropriate. For avoidance of doubt, only Islamic account is permitted for placement of Islamic Deposit with institutions licensed under the Financial Services Act 2013. The Fund is also prohibited from investing in interest-bearing Deposits and recognising any interest income.
- 2.5.5 The Fund shall seek for approval from Shariah Adviser for any other securities or instruments that are not being mentioned above.
- 2.5.6 On the timing for the disposal of securities which have been classified as Shariah non-compliant, the Fund must divest such securities if any of the following occurs:

- (i) **“Shariah-compliant securities” which are subsequently considered “Shariah non-compliant”**

This refers to securities which were classified as Shariah-compliant securities but due to certain reasons, such as changes in the companies' operations, are subsequently considered Shariah non-compliant. In this regard, if on the date the securities turned Shariah non-compliant, the value of the securities held exceeds the investment cost, the Fund must expedite the disposal of such securities. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of the Shariah non-compliant securities on the date of the announcement/ review can be kept by the Fund.

On the other hand, the Fund is allowed to hold its investment in the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Fund to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Fund is advised to dispose of its holding of such Shariah non-compliant securities.

2. DETAILED INFORMATION OF THE FUND (cont'd)

In addition, during the holding period of such Shariah non-compliant securities, the Fund is allowed to subscribe to:

- (a) any issue of new securities by the company such as rights issues, bonus issues, special issues and warrants but excluding securities whose nature is Shariah non-compliant such as irredeemable convertible unsecured loan stock; and
- (b) Shariah compliant securities of other companies offered by the company.

on condition that the Fund expedite the disposal of such Shariah non-compliant securities.

(ii) Shariah non-compliant securities

If the Fund invests in Shariah non-compliant securities by mistake, the Fund is required to dispose of such securities within a month of knowing the status of the securities. Any gain made in the form of capital gain or dividend received during or after the disposal of the securities is subject to an income purification process. The Fund has a right to retain only the investment cost, which may include brokerage fee and other transaction costs.

2.5.7 Dividends or other such income on the shares and cash held by the Fund which are considered impure under the Shariah principles will be subject to an income purification process.

2.5.8 Income Purification

Any income from Shariah non-compliant investments such as interest income, excess capital gain from disposal of Shariah non-compliant securities or dividend distribution received by the Fund from its investment portfolio which relates to fortuitous activities are considered impure income. This impure income is subject to an income purification process as determined by the Shariah Adviser from time to time and without limitation. The impure income has to be channelled to charitable bodies as endorsed by the Shariah Adviser and approved by the Trustee.

Any cash dividend received from the constituents of the Benchmark will be subject to a purification process as determined by the Manager upon consultation and endorsement by the Shariah Adviser from time to time.

2.5.9 Periodic Review

The Shariah Adviser will review the Fund on a monthly basis to ensure that the Fund's operating procedures and investments comply with Shariah. Upon completion of each review, the Shariah Adviser will deliver its opinion on the Fund's compliance with Shariah. Further, a report on the Fund's compliance status for the financial period concerned will be prepared by the Shariah Adviser and included in the Fund's annual report.

These Shariah Investment Guidelines have been endorsed by the Shariah Adviser. At the end of each quarter, the Shariah Adviser audits the Fund to ensure that the Fund's operating procedures and investments comply with the Shariah principles. Upon completion of each audit, the Shariah Adviser will deliver a certificate attesting that the Fund is in compliance with the Shariah principles.

The Shariah Adviser confirms that the investment portfolio of the Fund will comprise instruments that have been classified as Shariah-compliant by the SC SAC or the Shariah Advisory Council of Bank Negara Malaysia. For instruments that are not classified as Shariah-compliant by the SC SAC or the Shariah Advisory Council of Bank Negara Malaysia, the Shariah Adviser will review and determine the Shariah status of the said securities in accordance with the ruling issued by the Shariah Adviser.

2.6 Income distribution policy

The Fund may distribute amongst the Unitholders all or a substantial portion of the Fund's Distributable Income, pro-rated based on the number of Units held by each Unitholder as at the entitlement date of the income distribution. The exact amount to be distributed will be at the absolute discretion of the Manager.

Income distributions (if any) are expected to be made annually subject to the discretion of the Manager. Details of the entitlement date, distribution amount, ex-entitlement dates and payment date for the distributions will be published on Bursa Securities' website at www.bursamalaysia.com and the Fund's website at www.myetf.com.my.

An income distribution to the Unitholders may be made in the following manner:

- (i) by way of eDividend;
- (ii) by way of a cheque sent to the Unitholders' postal address; or
- (iii) such other method to be determined by the Manager and the Trustee, and allowed under the relevant rules and regulations in Malaysia.

2.7 Correlation and rebalancing

Correlation, in this context, is the measure of how the NAV of the Fund's portfolio moves in relation to the Benchmark. If the NAV of the Fund's portfolio moves exactly as the Benchmark, it would indicate a perfectly positive correlation or 100% correlation. If the NAV of the Fund's portfolio does not move exactly as the Benchmark, the correlation is less than 100%.

The Benchmark is a theoretical calculation while the Fund's portfolio is an actual holding of securities. The performance of the two (2) may vary due to Transaction Costs, fees, expenses and taxes.

In managing the Fund, the Manager will attempt to achieve a high positive correlation and a tracking error of less than 3% between the NAV of the Fund and the Benchmark. To achieve this, the Manager will primarily perform scheduled periodic rebalancing exercises which mirror the Benchmark's rebalancing schedule. The Manager will be responsible to continuously monitor the correlation and if in the Manager's belief, the current portfolio is not tracking the Benchmark closely and that it will lead to a lower correlation, then the Manager may judiciously rebalance the portfolio beyond the scheduled rebalancing frequency to improve the correlation or to rectify the divergence.

Except for index changes, where rebalancing of the portfolio may have to take place prior to, upon or after the index changes, rebalancing of the Fund's portfolio of

investments will be carried out no more than once a month, to reflect any changes to the composition of or weighting of shares in the Benchmark.

You should note that there is no guarantee or assurance that the performance of the Fund will be an exact or identical replication of the performance of the Benchmark at any time.

2.8 The Benchmark

(i) Introduction to the Benchmark

The Benchmark, namely the Dow Jones Islamic Market Malaysia Titans 25 Index, is a market capitalisation weighted and free-float adjusted index provided by the Index Licensor through the License Agreement. The Benchmark was created on 18 January 2008 and was constructed based on a reference value of 1,000 as of 17 January 2008.

The Benchmark is designed as a performance benchmark for the top 25 Shariah-compliant securities listed on Bursa Securities, weighted by market capitalisation. The Benchmark is derived from its Parent Index name the Dow Jones Islamic Market Malaysia Index.

The Parent Index represents all companies domiciled in Malaysia that comply with the methodology established by the Index Licensor for screening stocks to comply with the Shariah principle.

The Benchmark employs a modified market capitalization weighting scheme. The weight of each individual constituent is capped at 20% of the index which shall be reviewed on a quarterly basis.

For further information on ground rules for the Benchmark (Dow Jones Islamic Market Indices Methodology), the description of the Benchmark and the Parent Index's methodologies, please refer to Dow Jones's website at us.spindices.com.

The Parent Index and Benchmark consist only of Shariah-compliant securities which are approved by the Index Licensor's Shariah Supervisory Board based on the Dow Jones Islamic Market Indices Methodology. The Shariah Supervisory Board determines the Shariah compliance framework of the Benchmark and shall review, propose and advise S&P Dow Jones Indices on matters relating to the said Shariah compliance framework.

The Index Licensor is not a related corporation of the Manager.

(ii) Constituents of the Benchmark

As at the Latest Practicable Date, the constituents of the Dow Jones Islamic Market Malaysia Titans 25 Index and their respective weightings are as follows:

Source: S&P Dow Jones Indices

Note:

* The weight of a constituent changes in accordance with its market prices, and hence may exceed its capped weight during the period between the Benchmark's rebalancing dates.

There is no guarantee or assurance of exact or identical replication at any time of the performance of the Benchmark.

Benchmark composition may change and securities may be de-listed.

There is a lack of discretion for the Fund to adapt to market changes due to the inherent investment nature of exchange-traded funds and that falls in the Benchmark are expected to result in corresponding falls in the value of the Fund.

(iii) Shariah Compliance Screens

In accordance with the Dow Jones Islamic Market Indices Methodology, S&P Dow Jones Indices will screen the constituents of the Benchmark based on the following criteria:

a) Sector-Based Screens

Companies' income (cumulatively) from the following impure sources must not exceed 5% of revenue:

- Alcohol;
- Tobacco;
- Pork-related products;
- Conventional financial services (banking, insurance, etc.);
- Weapons and defense; and/or

2. DETAILED INFORMATION OF THE FUND (cont'd)

- Entertainment (hotels, casinos/gambling, cinema, pornography, music, etc.)

Companies classified as Financial (based on the Dow Jones Proprietary Sector Classification System) are considered eligible if the company is incorporated as an Islamic Financial Institution, such as:

- Islamic Banks; and
- Takaful Companies.

Companies classified as Real Estate (based on the Dow Jones Proprietary Sector Classification System) are considered eligible if the company's operations and properties are conducting business within Shariah principles.

b) Accounting-Based Screens/ Financial screen

Companies with unacceptable levels of debt or impure interest income are considered Shariah non-compliant and shall be removed from the Benchmark. For a company to be considered Shariah-compliant, each of the following three (3) financial ratios for the company must be less than 33%:

- Total debt divided by trailing 24-month average market capitalization ⁽¹⁾;
- The sum of a company's cash and interest-bearing securities divided by trailing 24-month average market capitalization ⁽¹⁾; and
- Accounts receivables divided by trailing 24-month average market capitalization.

Note:

⁽¹⁾ Shariah-compliant debt and Shariah-compliant instruments are excluded from the numerator when calculating the ratio.

Companies deemed Shariah-compliant at the prior evaluation period¹ that exceed the maximum ratio for any accounting-based screen at the current evaluation period remain compliant if the ratio is within two (2) percentage points of the maximum allowed i.e. if it is between 33% to 35%. However, if the maximum is breached for two (2) consecutive evaluation periods the companies will be deemed Shariah non-compliant. If any of the ratios are above the two (2) percentage point buffer limit i.e. more than 35%, the company is deemed Shariah non-compliant immediately.

Companies deemed Shariah non-compliant at the prior evaluation period that pass all accounting-based screens at the current evaluation period remain non-compliant if any ratio is within two (2) percentage points of the maximum allowed i.e. if it is between 31% and 33%. However, if the companies pass all accounting-based screens for two (2) consecutive evaluation periods, the companies will be deemed Shariah-compliant and included in the Benchmark. If all the accounting-based screens are above

¹ As of Latest Practicable Date, evaluation period means the quarterly rebalancing cycles for the Dow Jones Islamic Market Index.

the two (2) percentage point buffer limit i.e. above 35%, the company is deemed Shariah non-compliant immediately.

(iv) Replacement of the Benchmark

The Benchmark may be replaced in the event of cessation of the availability of the Benchmark.

As provided under the Deed, the Manager may, after taking into account the interests of the Unitholders and subject to the approval of the SC, replace the Dow Jones Islamic Market Malaysia Titans 25 Index with another Islamic index in the event any of the following occurs:

- (a) the Dow Jones Islamic Market Malaysia Titans 25 Index ceases to exist;
- (b) a major change is made in the formula or method used to calculate the Dow Jones Islamic Market Malaysia Titans 25 Index (other than a change in accordance with the operating rules of the Benchmark, such as a change in constituents), after obtaining the opinion of at least 1 independent expert;
- (c) a new index replacing the Dow Jones Islamic Market Malaysia Titans 25 Index is released, after obtaining the opinion of at least 1 independent expert;
- (d) in the opinion of the Board of iVCAP, after obtaining the opinion of at least 1 independent expert, a new index permitting better valuation of the investments made by the Unitholders of the Fund is released. The decision will be based on objective financial criteria including better liquidity, lower costs and a more efficient secondary market;
- (e) it becomes difficult to invest in the securities forming the Dow Jones Islamic Market Malaysia Titans 25 Index or if part of the securities forming the Dow Jones Islamic Market Malaysia Titans 25 Index have limited liquidity, after obtaining the opinion of at least 1 independent expert;
- (f) Dow Jones increases its license fee to a level considered too high by the Manager, after obtaining the opinion of at least 1 independent expert;
- (g) in the opinion of the Manager, the quality (including the precision and availability of data) of the Dow Jones Islamic Market Malaysia Titans 25 Index has deteriorated, after obtaining the opinion of an independent expert; or
- (h) the instruments and techniques used to guarantee sound portfolio management and needed to implement the investment policy of the Fund are not available, after obtaining the opinion of at least one independent expert.

The Manager and the Trustee may change the name of the Fund if the Benchmark is replaced. Any replacement of the Benchmark must first be approved by the SC and/or any other authorities, as the case may be.

(v) Further Information on the Benchmark

Latest information and other important news on the Benchmark will be published on Dow Jones's website at us.spindices.com (for index ground rules and methodology) and the Fund's website at www.myetf.com.my (for end of day index values).

2.9 Valuation of the Fund Assets

- (i) The NAV of the Fund shall be calculated by the Manager or its agent as at each Valuation Point by valuing the Fund Assets in accordance with Section 2.9(ii) below and deducting the Liabilities of the Fund.
- (ii) The valuation of the Fund Assets shall be done in accordance with the applicable Malaysian Accounting Standard Board Approved Accounting Standards in Malaysia for Entities Other Than Private Entities and the ETF Guidelines.
- (iii) The valuation basis for the Fund Assets is as follows:

- (a) Listed Shariah-compliant securities

The value of investment in Shariah-compliant securities shall be calculated by reference to the last transacted price on the Bursa Securities. Suspended Shariah-compliant securities will be valued at their last transacted price unless there is conclusive evidence to show that value of that Shariah-compliant security has gone below or above the suspended price or where the quotation of the Shariah-compliant securities has been suspended for a period exceeding fourteen (14) days, their fair value will be determined in good faith by the Manager based on the methods or basis approved by the Trustee after appropriate technical consultation.

- (b) Unlisted Shariah-compliant securities

As per the ETF Guidelines, the value of unlisted Shariah-compliant securities shall be determined on the basis of fair value as determined in good faith by the Manager based on methods or basis which have been verified by the Fund's auditors and approved by the Trustee.

- (c) Islamic Collective investment schemes

The value of investment in Islamic collective investment schemes which are quoted on an approved exchange shall be calculated in the same manner as other listed Shariah-compliant securities described in Section 2.9(iii)(a) above. When investing in unlisted Islamic collective investment schemes, the value shall be determined by reference to the last published repurchase price per unit for that Islamic collective investment scheme.

- (d) Islamic Deposits

The value of any Islamic deposits placed with Islamic Financial Institutions shall be determined each day by reference to the principal value of such investments and the income accrued thereon for the relevant period.

If the investment valuations referred to above are not available or if the value of the investments determined in the manner described above, in the opinion of the Manager, does not represent a fair value of such investments, then the value shall be any fair value as may be determined in good faith by the Manager. This valuation method shall be verified by the auditors of the Fund and approved by the Trustee.

2.10 Valuation of the Fund

In calculating the value of the Fund at any Valuation Point ("Relevant Time"):

- (i) every Unit agreed to be issued at the Relevant Time shall be deemed to be in issue (and every Unit approved shall be deemed to be in issue on the Trade Date) and the Fund Assets shall be deemed to include the amount of any cash and/or value of any Creation Securities to be paid and/or received in respect of such Unit;
- (ii) the Manager may base the calculation of the value of the Fund Assets at some earlier time on the same Dealing Day than the Relevant Time, or at any time on an earlier Dealing Day, and the Manager may change the day and time on which the calculation of the value is based from time to time. If the Manager decides to change the day and time on which the calculation of the value will be based, it will seek the prior written approval of the Trustee to each such change, and the Trustee shall in its sole discretion decide if the Unitholders should be informed of the change;
- (iii) every Unit agreed to be redeemed at the Relevant Time shall be deemed to be cancelled (and every Unit redeemed shall be deemed to be cancelled on the Trade Date) and the Fund Assets shall be deemed to exclude the amount of any cash and/or value of any Redemption Securities to be delivered and/or paid in respect of such Unit;
- (iv) where an Authorised Investment has been agreed to be purchased or otherwise acquired or sold but such purchase, acquisition or sale has not been completed, such Authorised Investment shall be included or excluded and the gross purchase or acquisition consideration or net sale proceeds excluded or included, as the case may require, as if such purchase acquisition or sale had been duly completed; and
- (v) there shall be included in the assets an amount equal to all such costs, charges, fees and expenses as the Manager may have determined to amortise pursuant to the provisions of the Deed less the amount thereof which have previously been or are then to be written off.

2.11 Risk management strategies and techniques

The risk management strategies and techniques employed by the Manager include the use of a replication strategy either via full or partial replication to achieve the investment objective of the Fund as well as to minimise its tracking error. As set out in Section 2.7 above, the Fund's investment portfolio may be rebalanced no more than once a month to reflect the composition and weightings of the Benchmark.

2. DETAILED INFORMATION OF THE FUND (cont'd)

For information concerning certain risk factors which should be considered by prospective investors, see "RISK FACTORS" in Section 3 of this Prospectus.

The rest of this page has been intentionally left blank
--

3.1 General risks of investing in the Fund**(i) Price and liquidity risks**

Investors should be aware that there may not be a liquid trading market for Units. There can be no assurance that active trading markets will develop, nor is there a certain basis for predicting the actual price levels at, or sizes in which the Units may trade. Further, there can be no assurance that the Units will experience trading or pricing patterns similar to those of market-traded shares which are issued by investment companies in other jurisdictions or which are based upon indices other than Benchmark.

Whilst the market maker has been appointed by the Manager, there can be no assurance that such liquidity risk will be fully mitigated. Investors should note, however, that the liquidity in the market for the Units may be adversely affected if the market maker fails or ceases to fulfil its role as a market maker. Consequently, investors may not be able to trade their Units on Bursa Securities due to the lack of liquidity. In order to address such liquidity risk, a liquidity provider has been appointed for the Fund.

(ii) Minimum creation and redemption size

Units will normally only be issued/redeemed in a Creation/Redemption Unit Block (currently 400,000 Units) or Creation /Redemption Unit Block Aggregations. Investors who do not hold Redemption Unit Blocks may only be able to realise the value of their Units by selling their Units on Bursa Securities.

(iii) Units may trade at prices other than at the NAV per Unit

The NAV per Unit represents the fair price for buying or selling Units. As with any listed fund, the secondary market price of Units may sometimes trade above or below this NAV per Unit. There is a risk, therefore, that Unitholders may not be able to buy or sell at a price close to this NAV per Unit. The deviation from NAV per Unit is dependent on a number of factors, but will be accentuated when there is a large imbalance between market supply and demand for Units on the Main Market.

However, given that Participating Dealers can apply to create and redeem Units in Creation and Redemption Unit Blocks, it is not anticipated that the market prices of Units will have large deviations from the NAV per Unit or even if there is, that such deviations will be sustained. However, if the creation and redemption of Units is temporarily suspended due to market events, the trading price of the Units may be adversely affected and differ from the NAV per Unit.

(iv) NAV will not track the Benchmark exactly

Changes in the NAV of the Fund are unlikely to replicate the exact changes in the Benchmark. This is due to, among other things, the fees and expenses payable by the Fund and transaction fees and stamp duty incurred in adjusting the composition of the Fund's portfolio because of changes in the Benchmark and dividends received, but not distributed, by the Fund. In addition, as a result of the unavailability of Index Shares, the transaction costs in making an adjustment outweighing the anticipated benefits of such adjustment or for certain

other reasons, there may be timing differences between changes in the Benchmark and the corresponding adjustment to the shares which comprise the Fund's portfolio. During times when Index Shares are unavailable or when the Manager determines it is in the best interests of the Fund to do so, the Fund may maintain a small cash position or invest in other Authorised Investments until Index Shares become available. Such costs, expenses, cash balances, timing differences or holdings could cause the Fund's NAV to be lower or higher than the relative level of the Benchmark. However, it is the aim of the Manager to minimise the absolute tracking error between the Fund and the Benchmark.

(v) Income distributions are contingent on dividend paid on Index Shares

The ability of the Fund to distribute income to the Unitholders depends on dividends declared and paid by the companies whose shares are held by the Fund and the level of fees and expenses payable by the Fund. Dividend payment rates of these companies are based on numerous factors, including their current financial condition, their dividend policies and the general economic condition. There can be no assurance that such companies will declare dividends or make other distributions. In addition, changes to the composition of the Benchmark (for example, the substitution of one constituent stock in the Benchmark with another paying higher or lower dividend) will affect the level of dividends received by the Fund.

To the extent possible, the Fund may distribute all, or substantially all, of the dividends (after the income purification process and deduction of relevant fees, expenses and taxes) received by the Fund amongst the Unitholders, pro-rated based on the number of Units held by each Unitholder as at the entitlement date of the income distribution. The exact amount to be distributed will be at the discretion of the Manager.

(vi) Dependence upon trading market for Index Shares

All of the Index Shares are listed on Bursa Securities. The existence of a liquid trading market for the Index Shares may depend on whether there is a supply of, and demand for, such Index Shares. There can be no assurance that there will be active trading in any of the Index Shares. The price at which the Index Shares may be purchased or sold by the Fund upon any rebalancing activities or otherwise and the NAV of the Fund may be adversely affected if trading markets for the Index Shares are limited or absent. Nevertheless, the constituent companies of the Benchmark generally have liquidity in the Malaysian stock market.

(vii) Lack of discretion by Manager to adapt to market changes

The Index Shares held by the Fund will reflect the distribution of companies whose shares comprise the Benchmark. Therefore, adverse changes in the financial condition or share price of any company included in the Benchmark will be likely to adversely affect the Fund's NAV and the trading price of the Units. The Manager will have no discretion to remove the shares of such company from the Fund.

(viii) Trading in Units on Bursa Securities may be suspended

Investors will not be able to purchase or sell Units on Bursa Securities during any period that Bursa Securities suspends trading in the Units. Bursa Securities may suspend the trading of Units whenever it determines as appropriate in the interests of a fair and orderly market to protect investors. The creation and redemption of Units will also be suspended in the event that the trading of Units on Bursa Securities is suspended.

(ix) Units may be de-listed from Bursa Securities

Bursa Securities imposes certain requirements for the continued listing of securities, including the Units, on Bursa Securities. Investors cannot be assured that the Fund will continue to meet the requirements necessary to maintain the listing of the Units on the Main Market or that Bursa Securities will not change the Listing Requirements. The Fund may be terminated if its Units are de-listed from Bursa Securities.

(x) Reliance on Participating Dealers

The creation and redemption of Units can only be effected through Participating Dealers. The numbers of Participating Dealers at any given time may be limited. Participating Dealers is under no obligation to accept instructions to apply for or redeem Units on behalf of investors. Participating Dealers will not be able to create or redeem Units during any period when, amongst other things, dealings on Bursa Securities are restricted or suspended, settlement or clearing of securities is disrupted or the Benchmark is not compiled published. In addition, Participating Dealers will not be able to create or redeem Units if some other event occurs which impedes the calculation of the NAV of the Fund by the Manager or during which delivery of Index Shares or disposal of the Fund's investments cannot be effected normally.

(xi) Suspension of creations and redemptions

Dealings of Units on Bursa Securities may not necessarily be suspended in the event that the creation and redemption of Units is temporarily suspended by the Manager in accordance with the terms of the Deed. If the creation and redemption of Units is temporarily suspended, the trading price of the Units may be adversely affected and differ from the market value of the Fund's underlying assets.

(xii) Shariah non-compliance risk

The Fund only invests in accordance with the Shariah investment policies and guidelines established and endorsed by the Shariah Adviser for the Fund which must comply with the SC SAC's Shariah criteria. If any of the Index Shares do not comply with the Shariah Investment policies and guidelines of the Fund, the Manager will then dispose these Index Shares and the Fund may potentially suffer losses as a result. Furthermore, securities which do not comply with the Shariah investment policies and guidelines of the Fund may be added to the Benchmark by the Index Licensor during its review. As a result, the Fund may

not be able to closely track the Benchmark as it would not be able to invest in these Index Share.

(xiii) Registration or cross-listing of the Fund in other markets

The Fund may in the future be registered on other markets, or cross-listed on other exchanges, or otherwise offered in other jurisdictions. As this is expected to improve the liquidity for existing Unitholders and may result in more efficient secondary market pricing due to increased scope for arbitrage, the Manager may be permitted by the Trustee to charge the related costs to the Fund, which increases the MER of the Fund and may result in a larger tracking error between the Fund and the Benchmark.

3.2 Risk factors related to the Benchmark

(i) The Benchmark is subject to fluctuations

The investment objective of the Fund is to ensure that the NAV of the Fund corresponds closely with the performance of the Benchmark. As the Benchmark may experience periods of volatility or decline in the future, this may result in the NAV of the Fund and the price of the Units experiencing similar volatility or decline.

(ii) Concentration of the Benchmark in certain economic sectors and companies

If the Benchmark comprises Index Shares that are concentrated in a particular group of securities, industry or group of industries the Fund may be adversely affected by the performance of those securities and be subject to price volatility. Further, the Fund may also be more susceptible to any single economic, market, political or regulatory occurrence. This is partly mitigated by the single-security limit embedded in the Benchmark's construction.

(iii) Composition and weightings in the Benchmark may change

The constituents in the Benchmark can be changed by the Index Licensor from time to time and may not necessarily comprise the same set of constituents at the time of the investment in the Units. The price of the Units may rise or fall as a result of such changes. The composition of the Benchmark may also change if one of the constituent companies were to be de-listed or if a new eligible company were to be listed and is added to the Benchmark. If this happens, the weighting and composition of the Index Shares invested by the Fund would be changed as considered appropriate by the Manager in order to achieve the Fund's investment objective. Further, the weighting and/or composition of the Index Shares invested by the Fund may also change during the rebalancing of the Fund's portfolio of investments which may be undertaken not more than once a month.

(iv) License to use the Benchmark may not be renewed

The Manager has been granted a license by the Index Licensor to use the Benchmark in connection with the operation, marketing and promotion of the

Fund. The Fund may be terminated if the Index License Agreement is not renewed or is terminated and the Manager is unable to identify or agree with the Index Licensor or any other index provider's terms for the use of a suitable replacement index that uses, in the opinion of the Manager, the same or substantially similar formula for the method of calculation as the Benchmark. Any such replacement index will be subject to the approval of the SC and Unitholders (if the objective of the replacement index differs from the Benchmark) and notified to Unitholders (if the objective of the replacement index does not differ from the Benchmark). Accordingly, prospective investors should note that the ability of the Fund to track the Benchmark depends on the continuation in force of the Index Licence Agreement in respect of the Benchmark or a suitable replacement.

(v) Errors or inaccuracies in the Benchmark

Factors such as technical glitch in the Index Licensor' or the exchange's system and inconsistency of information provided by multiple data vendors to the Index Licensor may affect the accuracy and completeness in the calculation of the Benchmark. These inaccuracies, errors, omissions or mistakes in the compilation or calculation of the Benchmark may result in significant deviations between the NAV of the Fund and the Benchmark. The Manager and Trustee are not responsible or involved in the compilation or calculation of the Benchmark, and thus cannot be held responsible or liable for any inaccuracies, errors, omissions or mistakes in such compilation or calculation.

(v) Indemnity under the License Agreement

Under the terms of the License Agreement, the Manager shall indemnify and hold harmless the Index Licensor against any loss arising out of or related to a breach of the License Agreement by the Index Licensee or the Fund (except to the extent such losses arise out of or relate to or is contributed by a breach by the Index Licensor of certain representation or warranty of the License Agreement, its gross negligence or willful misconduct). The Manager is entitled to have recourse to the Fund Assets by way of indemnity in respect of any claims made against them in relation to the License Agreement (including where the Manager is liable to compensate the Index Licensor under the License Agreement) provided that such losses are not due to the fraud, gross, negligence, bad faith or willful misconduct on the part the Manager. This arrangement may result in a decrease in the NAV of the Fund.

3.3 Other risk factors

(i) Regional economic risks

Adverse economic developments in Malaysia or elsewhere could have a material adverse effect on the financial conditions and operations of the constituent companies of the Benchmark.

(ii) Country risks

The Fund Assets are invested mainly in constituents of the Benchmark comprising stocks of major Malaysian companies with business activities based predominantly in Malaysia. As the Fund only invests in securities of a single

country, the performance of the Fund may also be more susceptible to any single economic, market, political or regulatory occurrence,

(iii) Tracking error risk

Imperfect correlation between the NAV of the Fund and the Benchmark may occur due to factors such as the fees and expenses incurred by the Fund, rounding of share prices, changes to the Benchmark, dividend purification and, regulatory policies. There is no assurance that the Fund will be able to fully track the performance of the Benchmark.

To minimise the tracking error, the Manager aims to adopt a full replication strategy in managing the Fund. However, a partial replication technique may be adopted if the Manager believes that the full replication technique is not the most efficient method to track the Benchmark.

5.1 Purchase and Sale of the Units

Investors can purchase and sell Units by any of the two available options below:

- (i) apply for an In-Kind Creation/Cash Creation of Units in a Creation Unit Block (or whole multiples thereof) or apply for an In-Kind Redemption/Cash Redemption of Units in a Redemption Unit Block (or whole multiples thereof), through a Participating Dealer. The procedures are set out in Sections 5.2, 5.3, 5.4, 5.5 and 5.6 of this Prospectus; or
- (ii) trade their Units in the secondary market on Bursa Securities like ordinary listed shares through a licensed intermediary such as a stockbroker or any of the share dealing services offered by banks or other financial advisers. Further details are set out in Section 5.10 of this Prospectus.

Investors should note that transactions in the secondary market on Bursa Securities as set out in Section 5.1(ii) above will occur at quoted market prices, which may differ from the NAV per Unit due to market demand and supply, liquidity and scale of trading spread for the Units.

5.2 Creation and redemption of Units

Applications from a Participating Dealer for the creation and redemption of Units in accordance with the Participating Dealer Agreements are expected under the following circumstances:

- (i) to facilitate the Participating Dealers' clients' requests for creation and/or redemption of Units; and
- (ii) to create liquidity in the market as part of the Participating Dealers or liquidity provider's market making function.

Investors should note that the Fund is not like a typical unit trust fund offered to the public. Investors can acquire or dispose Units by trading Units on Bursa Securities. New Units are only issued to the Participating Dealers. Hence, investors may only apply through the Participating Dealers for creation of Units via Creation Applications or redemption of Units via Redemption Applications, subject to the terms and conditions of the Deed and based on the procedures set out in the Participating Dealer Agreements.

The prices at which creations and redemptions occur are based on the NAV per Unit at the Valuation Point on the Trade Date.

5.3 Procedures for in-kind creation

- 5.3.1 Creation of new Units can only be made on a Dealing Day by a Participating Dealer who will submit a Creation Application to exchange In-Kind Creation Basket(s) for Units in a Creation Unit Block (or whole multiples thereof).

5. UNITS OF THE FUND (cont'd)

- 5.3.2 The In-Kind Creation Basket will be determined by the Manager on each Dealing Day and published on the Fund's website at www.myetf.com.my and Bursa Securities' website at www.bursamalaysia.com prior to the opening of the market on that Dealing Day.
- 5.3.3 Creation Applications received from Participating Dealers on a day which is not a Dealing Day or is received after the Dealing Deadline of a Dealing Day shall be treated as having been received on the following Dealing Day.
- 5.3.4 Once a Creation Application is submitted, it cannot be revoked or withdrawn without the consent of the Manager, unless a suspension period has been declared by the Manager in accordance with the Deed.
- 5.3.5 For a Creation Application to be valid, it must:
- (i) be submitted by a Participating Dealer in accordance with the Participating Dealer Agreements;
 - (ii) include the certifications required under the Participating Dealer Agreements, and such other certificates and opinion of counsel as the Trustee and Manager may consider necessary to ensure compliance with applicable laws;
 - (iii) specify the number of Creation Unit Blocks (the current size of one (1) Creation Unit Block is 400,000 Units); and
 - (iv) specify the person making the Creation Application or on whose behalf the Creation Application is being made.

5.3.9 In addition, the Trustee may (by notice to the Manager) refuse to:

- (i) create Units; or

if the Trustee considers that such creation is not in the interest of the Unitholders or that it would result in a breach of the provisions of the Deed and other applicable laws.

5.3.10 The Manager can refuse to enter Units in the register of the Fund if it is of the opinion that the provisions of the Deed, in relation to the issue of Units, are being infringed.

- (ii) If any Units are cancelled as described in Section 5.3.12(i) above, the Creation Securities (if already vested upon the Fund) and the Cash Component (if already received in cleared funds by the Trustee) shall be redelivered to the Participating Dealers.

The relevant cancelled Units shall be deemed to never have been created and the relevant Participating Dealers shall have no right or claim against the Manager or the Trustee in respect of such cancellation. Further, the Manager may charge the Participating Dealers the Application Cancellation Fee.

then the Manager, in consultation with the Trustee, may substitute the Authorised Investments comprised in an In-Kind Creation Basket with cash.

- (ii) If the Manager exercises this discretion, the cash in lieu amount should equal the value of the substituted Authorised Investment and shall comprise part of the Cash Component (if any). Such substituted Authorised Investment will then cease to be a Creation Security comprising part of the In-Kind Creation Basket.
- (iii) The Manager, in consultation with the Trustee, is entitled to charge the Participating Dealers (for which cash is paid in lieu of delivering any Creation Securities), in addition to the Transaction Costs, such other fees that may be incurred by the Manager and/or Trustee in relation to the creation of the Units and/or the Creation Application.

 - (ii) redeem Units in the number instructed by the Manager;
- if the Trustee considers that such redemption is not in the interest of the Unitholders or that it would result in a breach of the provisions of the Deed and other applicable laws.
- 5.4.16 Substitution of Redemption Securities
- (i) Following a Redemption Application by the Participating Dealers,

5.7 Calculation of Issue Price, Redemption Price and IOPV

The Deed provides that the Issue Price or Redemption Price of each Unit for any relevant Dealing Day will, subject to the qualification below, be calculated by the

5. UNITS OF THE FUND (cont'd)

Manager and shall be based on the NAV of the Fund as at the Valuation Point on the Trade Date divided by the number of Units then in issue and deemed to be issued, rounded to the nearest four decimal places with any amount of 0.00005 being rounded up or in such manner as may be determined by the Manager from time to time with the approval of the Trustee. The benefit of any such rounding shall accrue to the Fund.

The Manager may, in consultation with the Trustee, add to the Issue Price (but not include within it) such sum (if any) as the Manager may consider representative of the appropriate provision for Transaction Costs which shall be for the account of the Fund.

Unless directed to do so by a Unitholder, not later than 1 month after the relevant Trade Date, the Trustee shall be under no obligation to check the calculation of the Issue and/or Redemption Price but shall be entitled at any time to require the Manager to justify the same. The Trustee shall be entitled to require a Unitholder to pay all reasonable costs of the Trustee in carrying out the Unitholder's request to check the calculation of the Issue Price and/or Redemption Price.

As the NAV of the Fund is only calculated at the Valuation Point, the IOPV is calculated by the Manager throughout a Dealing Day to serve as an approximation to the NAV. The IOPV, which is the real-time NAV of the In-Kind Creation Basket, is calculated as follows:

- (i) multiplying real-time price of shares in the In-Kind Creation Basket;
- (ii) adding the Cash Component; and
- (iii) dividing the figure obtained from the calculation under paragraph (ii) by the number of Units that constitute a Creation Unit Block.

5.8 Transaction Costs

The Fund Assets may be decreased as a result of costs incurred in respect of transactions or dealings pursuant to a Creation/Redemption Application. In order to prevent any potential adverse effect on your investment in the Fund, the Manager has the discretion to charge the Participating Dealers, amongst others, all stamp and other duties, taxes, government charges, brokerage, bank charges, transfer fees, registration fees, transaction levies and other duties and charges in relation to the Creation/Redemption Application. These transaction costs may be charged to you by the Participating Dealers.

5.9 Obtaining information on the In-Kind Creation Basket and In-Kind Redemption Basket

Details of the In-Kind Creation Basket and In-Kind Redemption Basket and the corresponding Creation Unit Block and Redemption Unit Block sizes will be made available via daily announcements by the Manager on the Fund's website at www.myetf.com.my and Bursa Securities' website at www.bursamalaysia.com and other channels, as the case may be. The Manager does not accept any responsibility for any errors of the details published or for any non-publication, non-telecast, late publication or late telecast of such details and shall incur no liability in respect of any action taken or loss suffered by you in reliance upon such publication or telecast (as the case may be).

5.10 Trading of the Units

The Units can be bought and sold throughout the trading day like other publicly-traded shares. There is no minimum investment. Although, Units are generally purchased and sold in “board lots” of 100 Units, brokerage firms may permit you to purchase or sell Units in smaller “odd lots”. However, prices of Units traded in “odd-lots” may differ from Units purchased and sold in “board lots”. When buying or selling Units through a broker, you will incur customary brokerage fee, stamp duty and clearing fees.

Pursuant to Section 14(1) of the Central Depositories Act, Bursa Securities has prescribed the Units as prescribed security. In consequence thereof, the Units will be deposited directly with Bursa Depository and any dealings in the Units will be carried out in accordance with the Central Depositories Act and the rules of Bursa Depository.

As an investor, you are the beneficial owner of the Units as shown in the records of Bursa Depository. Bursa Depository serves as the securities depository for all Units of the Fund. As a beneficial owner of the Units, you are not entitled to receive physical delivery of Unit certificates or to have the Units registered in your name, and you are not considered a registered owner of the Units. Therefore, to exercise any right as an owner of the Units, you must rely upon the procedures of Bursa Depository. These procedures are the same as those that apply to securities listed on Bursa Securities.

5.10.1 Unit trading price

The trading prices of Units on Bursa Securities may differ from their daily NAVs and can be affected by market forces such as supply and demand, economic conditions and other factors. You may keep track of the current market price of the Units via Bursa Securities’ website at www.bursamalaysia.com on a daily basis.

The Units will be traded on the Main Market as determined by Bursa Securities in accordance with the relevant tick-size rules as set by Bursa Securities. This may be different from the bid/ask spread of the underlying securities.

5.10.2 Liquidity provision

It is the intention of the Manager to facilitate the provision of liquidity for you through the appointment of the Participating Dealers and/or liquidity providers who are required to maintain a market for the Units. In maintaining a market for the Units, the Participating Dealers and/or liquidity providers may realise profits or sustain losses. Any profit made by the Participating Dealers and/or liquidity providers may be retained by them for their absolute benefit and they shall not be liable to account to the Trustee in respect of such profits.

Although Participating Dealers may buy and sell Units just like retail investors via Bursa Securities, there is no guarantee or assurance as to the price at which the market for the Units will be made. A list of Participating Dealers appointed by the Manager may be obtained from Bursa Securities’ website. The Manager will also notify Bursa Securities of any changes to the list of Participating Dealers.

Dear Sirs,

TAXATION OF THE FUND OFFERED UNDER THE PROSPECTUS AND UNIT HOLDERS

This letter has been prepared for inclusion in the Prospectus ("hereinafter referred to as "the Prospectus") in connection with the offer of units in the MyETF Dow Jones Islamic Market Malaysia Titans 25 ("the Fund").

The taxation of income for both the Fund and the unit holders are subject to the provisions of the Malaysian Income Tax Act, 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the Trustee of the Fund is resident in Malaysia.

(1) Foreign Investments

Income of the Fund in respect of overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the unit holders. Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. However, any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Fund in Malaysia.

The foreign income exempted from Malaysian tax at the Trust level will also be exempted from tax upon distribution to the unit holders.

**(2) Domestic Investments****(i) General Taxation**

The income of the Fund consisting of dividends, interest / profit¹ (other than interest / profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24%.

Gains on disposal of investments in Malaysia by the Fund will not be subject to Malaysia income tax.

(ii) Dividends and Other Exempt Income

All companies have adopted the single-tier system. Hence dividends received from Malaysian companies would be exempted from tax and the expenses incurred against such dividend income would be disregarded. There will not be any tax refunds available for single-tier dividends received.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or discount income or profit¹ derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the Government of Malaysia;
- (b) Debentures or sukuk, other than convertible loan stocks, approved or authorised or lodged with the Securities Commission Malaysia ("SC"); or
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Income from Investment in structured products which are seen to be "debentures" under Capital Markets and Services Act 2007 will be exempted. Otherwise, tax implications could arise.

- (d) Interest or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013 or any development financial institution regulated under the Development Financial Institutions Act 2002²;
- (e) Bonds, other than convertible loan stocks, paid or credited by any company listed on Bursa Malaysia Securities Berhad ACE Market; and
- (f) Interest or profit¹ paid or credited by Malaysia Building Society Berhad .

The interest income / profit¹ or discount exempted from tax at the Fund's level will also be exempted from tax upon distribution to the unit holders.

¹ Under section 2(7) of the Income Tax Act 1967, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received, and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah. The effect of this is that any gain or profits received, and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah, will be accorded the same tax treatment as if they were interest.

² Pursuant to the letters from Ministry of Finance Malaysia dated 11 June 2015 and 16 June 2015 with effect from YA 2015.

Exceptions:

With effect from 1 January 2019, the exemption shall not apply to interest income / profit¹ paid or credited to a unit trust that is a wholesale money market fund.

The Ministry of Finance has communicated that the tax exemptions available to retail money market funds will no longer apply to corporate investors with effect from 1 July 2020 onwards. This will mean that income which would normally be tax exempted at unit trust level will no longer be tax exempted if received by corporate investors.

(3) Other Income

The Fund may receive other income such as exit fee which will subject to tax at the rate of 24%.

(4) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of taxable gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages. The deductions are based on a formula subject to a minimum of 10% and a maximum of 25% of the expenses.

(5) Real Property Gains Tax ("RPGT")

With effect from 1 January 2019, any gains on disposal of real properties or shares in real property companies³ (chargeable asset) by the Trust would be subject to RPGT at the following rates:-

Disposal time frame	RPGT rates
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	10%

(6) Sales and Services Tax ("SST")

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax ("GST"). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5%, 10% or a specific rate whereas the rate for service tax is at 6%.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable costs to the business.

³ A real property company is a controlled company which owns or acquires real property or shares in a real property company with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 members.

In general, the Fund, being collective investment vehicles, will not be caught under the service tax regime.

Certain brokerage, professional, consultancy or management services obtained by the Fund may be subject to service tax at 6 percent. However, fund management services and trust services are excluded from service tax. In addition, with effect from 1 January 2019, should the Fund acquire imported taxable services from foreign service providers, the Fund will be required to self-impose the 6% service tax and remit the tax to the Royal Malaysian Customs Department in the prescribed form.

TAXATION OF UNIT HOLDERS

Unit holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Fund.

Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

Corporate unit holders, resident⁴ and non-resident, will generally be liable to income tax at 24% on distribution of income received from the Fund. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these unit holders.

Individuals and other non-corporate unit holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1% to 30%⁵. Individuals and other non-corporate unit holders who are not resident in Malaysia will be subject to income tax at 30%. The tax credits attributable to the distribution of income will be utilised against the tax liabilities of these unit holders.
