INTRODUCTION

MyETF Dow Jones Islamic Market Malaysia Titans 25 or MyETF-DJIM25 is the first Shariah exchange-traded-fund (“ETF”) introduced in Asia and is currently the third largest Shariah ETF in the world by asset size. It is designed to provide investment results that closely correspond to the performance of its Benchmark Index i.e. Dow Jones Islamic Market Malaysia Titans 25 Index (“DJMY25 Index”).

Structured as an ETF, MyETF-DJIM25 is a liquid and cost efficient financial instrument for investors who wish to get immediate access to the performance of Malaysia’s Shariah equity market. MyETF-DJIM25 was listed on the Main Market of Bursa Securities on 31 January 2008. The stock short name and stock number for MyETF-DJIM25 are “MYETFDJ” and “0821EA” respectively.

The benchmark index, DJMY25 Index, is a market-capitalisation weighted index of 25 largest Shariah-compliant securities listed on Bursa Malaysia Securities Berhad (“Bursa Securities”). Provided by S&P Dow Jones, the index is constructed and computed based on the robust methodology established by S&P Dow Jones in terms of investability and Shariah aspects.

MANAGER'S REPORT

For the Financial Period 1 January 2020 to 31 December 2020

| | |
|--------------------------|--|
| Name of Fund | : MyETF Dow Jones Islamic Market Malaysia Titans 25 ("MyETF- DJIM25" or "the Fund") |
| Type of Fund | : Exchange Traded Fund |
| Fund Category | : Shariah-Compliant Equity |
| Commencement Date | : 22 January 2008 |
| Benchmark Index | : Dow Jones Islamic Market Malaysia Titans 25 Index ("DJIM25 Index") |
| Manager | : i-VCAP Management Sdn. Bhd. ("i-VCAP") |

1. Investment Objective

MyETF-DJIM25 is designed to provide investment results that closely correspond to the performance of the Benchmark Index. The Manager attempts to achieve an absolute value of tracking error of less than 3% between the Net Asset Value ("NAV") of the Fund and the Benchmark Index.

2. Benchmark Index

The Benchmark Index is a market capitalisation weighted and free-float adjusted index provided by S&P Dow Jones Indices ("S&P Dow Jones").

The Benchmark Index was created on 18 January 2008 and constructed based on a reference value of 1,000 as of 17 January 2008. The Benchmark Index consists of 25 Shariah-Compliant securities of companies listed on Bursa Malaysia Securities Berhad ("Bursa Securities").

The universe for selection of the DJIM25 Index components includes all equities in the Dow Jones Islamic Market Malaysia Index, an index comprised of Malaysia-based companies that conform to the methodology established by S&P Dow Jones to screen stocks for compliance with the Shariah investment guidelines.

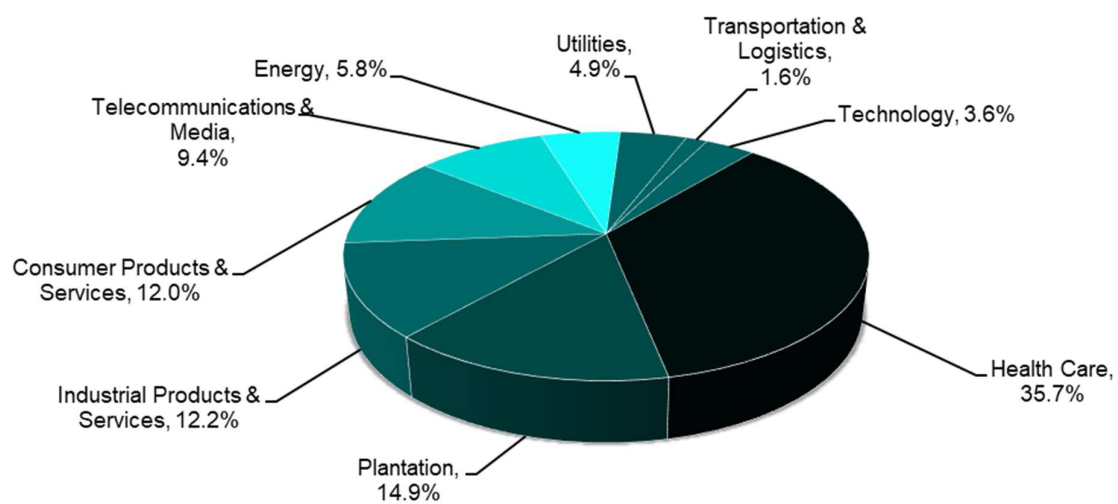

Based on the latest quarterly review (as at 18 December 2020), the sector allocation of DJIM25 Index based on S&P Dow Jones and Bursa Securities sector classifications are as follows:

Chart 1(a): Sector Classification – S&P Dow Jones

Source: S&P Dow Jones

Chart 1(b): Sector Classification - Bursa Securities

Sources: Bursa Malaysia, S&P Dow Jones

3. Investment Strategy

During the financial year under review, the Manager tracked the performance of the Benchmark Index by investing all, or substantially all, of the Fund's assets in the constituents of the Benchmark Index in substantially the same weightings as they appear in the Benchmark Index.

The Manager used techniques including indexing by way of full or partial replication and/or investing in certain authorised investments, in seeking to achieve the investment objective of the Fund, subject to conformity to the Shariah.

4. Fund Performance

For the Financial Year 2020, the Fund achieved its investment objective to track closely the underlying benchmark, i.e. DJIM25 Index. As at 31 December 2020, the 3-year rolling tracking errors between the NAV per unit of the Fund and the Benchmark Index on both Price Return and Total Return basis were 0.09% respectively, well within the 3% limit stipulated under the Fund's investment objective.

The Fund's NAV per unit increased by 17.25% to RM1.2873 from RM1.0979 while the Benchmark Index and Benchmark's Total Return Index (DJIM25 Total Return Index) increased by 17.90% and 20.66% respectively. The variance between the DJIM25 Index and Fund's NAV movement was largely due to the adjustment to the Fund's NAV following the income distribution of 1.81 sen per unit for the Financial Year ended 31 December 2019 which was declared and paid during the year.

The Fund had a weak start with its NAV and price per unit retraced to its low for the year of RM0.8893 and RM0.8600 on 19 March and 31 March respectively, in tandem with the decline in the stock market. The drop was caused by unbridled global fears about the spread of the coronavirus, oil price drops, and the possibility of a 2020 recession. The Fund however, recovered sharply and hit its year high of RM1.4463 per unit on 6 August due to the rollout of several Covid-19 vaccines and new economic relief packages were announced by the government. The Fund's NAV closed the year at RM1.2873 per unit. For the period, the Fund's unit price traded on Bursa Securities moved in tandem but largely at a discount to its NAV before closing the quarter slightly at premium of RM1.3000.

As at end-December 2020, total units in circulation for the Fund declined to 257.5 million units from 267.9 million units on a net redemption of 10.4 million units during the year. The key statistics and comparative performance of the Fund for the Financial Year ended 31 December 2020 are summarised as follows:

Table 1: Key Statistics

| | As at 31-Dec-20 | As at 31-Dec-19 | As at 31-Dec-18 | As at 31-Dec-17 | As at 31-Dec-16 |

* Based on NAV on income distribution declared date.

S&P Dow Jones had postponed its 1Q20 rebalancing for S&P and Dow Jones equity indices. The decision was made following thorough consideration of how best to support their clients and govern their indices during the period of extreme global market volatility, market wide circuit breaker events and exchange closures. Nonetheless, S&P Dow Jones continued to perform three quarterly reviews in 2020 (in June, September and December) and rebalanced the composition of the Benchmark Index in accordance with its index methodology. The quarterly reviews had resulted in changes to the weightings of the component stocks and stock constituents in the Benchmark Index. During the year, two stocks were removed while two stocks were included into the Fund at its quarterly reviews. The summary of the changes are as follows:

Table 3: List of Stock Inclusion and Exclusion

| | Stock Inclusions | Stock Exclusions |
|-------------|--------------------------|----------------------------|
| 2Q20 | Supermax Corporation Bhd | Telekom Malaysia Bhd |
| 3Q20 | Comfort Gloves Bhd. | Genting Plantations Bhd. |
| 4Q20 | Duopharma Biotech Bhd | Serba Dinamik Holdings Bhd |

In terms of sectoral weightings, notable changes to the Fund's sector composition as compared to the previous year were the decrease in Plantation sector from 21.80% to 15.02% while weighting of Healthcare sector increased from 15.50% to 33.05% due to glove stocks jumped on a surge in demand for gloves as a result of the coronavirus pandemic. Top holdings of the Fund and details of the sector exposure are as follows

Table 4: Top Ten Holdings as at 31 December 2020

| Stock | % of NAV |
|---------------------------------------|---------------|
| 1. Top Glove Corporation Bhd | 11.65% |
| 2. Hartalega Holdings Bhd | 8.07% |
| 3. Petronas Chemicals Group Bhd | 6.89% |

5. Distribution Policy

The Fund may distribute amongst the unitholders all, or substantially all of the dividend income that the Fund received from its stock investment, pro-rated based on the number of units held by each unitholder as at the entitlement date of the income distribution. The exact amount to be distributed will be at the absolute discretion of the Manager, subject to compliance with the Exchange-Traded Funds Guidelines issued by the Securities Commission Malaysia on 26 November 2018 which may be revised from time to time.

In April 2020, the Fund paid an income distribution amounted to RM4,704,190 in relation to the first and final distribution of 1.81 sen per unit for the Financial Year 2019 (declared in February 2020). The first and final income distribution amount is derived from the dividend income and profit income during the year.

6. Other Information

There was no material litigation involving the Fund and no significant changes in the state of affairs of the Fund during the period under review. There is also no other material information that will adversely affect the Fund's valuation and the interest of unit holders.

7. Cross Trade

It is the Manager's policy not to perform any cross trade transaction.

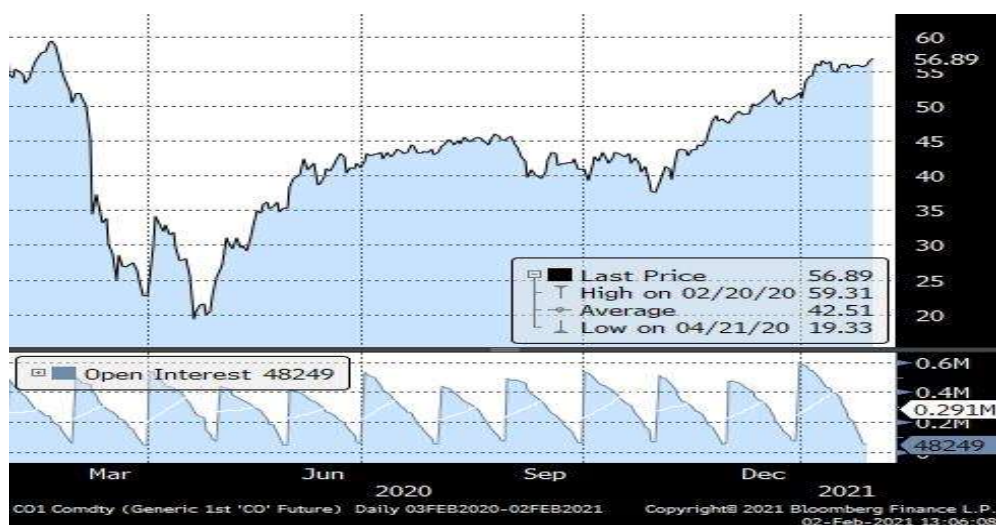

8. Soft Dollar Commissions

It is the Manager's policy to not receive any goods or services by way of soft commission.

9. Market Review and Outlook

The year 2020 proved to be one of the most tumultuous in modern history, marked by a number of developments that were historically unprecedented. But the year also demonstrated the resilience of people, institutions, and financial markets. Global equity markets endured an eventful 2020, punctuated by a series of major economic and political events which threatened to derail markets. It started off with the novel coronavirus which was first detected in China's Wuhan city. The infections multiplied around the world rapidly and the pandemic has resulting in a global economic contraction as people stayed closer to home. Equities fell sharply in February and March as the Covid-19 pandemic spread outside of China and forced countries into lockdowns that grinded economic activity to a halt. This was further exacerbated by the fall in Brent crude oil prices that hit an 18-year low at USD19.33/barrel on 21 April 2020. Governments and central banks worked to cushion the blow, providing financial support for individuals and businesses and adjusting lending rates.

Chart 5: Brent Performance in 2020

Sources: Bloomberg

Nevertheless, after bottoming out in late March, and amid massive action by the central banks to shore up the credit markets, most equity markets rebounded dramatically and have ripped off a series of record highs before the end of year. The latest moves into record territory came amid the rollout of several Covid-19 vaccines and a new economic relief packages from the governments across the world.

The economy of most markets were regaining ground in the 3Q20. The increase in third quarter gross domestic product (GDP) reflected continued efforts to reopen businesses and resume activities that were postponed or restricted due to Covid-19. The US economy increased 33.1% in the 3Q20, following a decrease of 31.4% the 2Q20. Meanwhile, the economic growth in the Eurozone increased by 12.7% in the 3Q20 compared to a decrease of 11.8% in 2Q20. In China, the economy registered 4.9% GDP growth in 3Q20. The latest figures brought China's GDP growth in the first three quarters of 2020 to 0.7%. Overall, it's a comeback from the first quarter, when China's GDP contracted a historic 6.8%.

Malaysia's GDP shrank by 2.7% in the 3Q20 compared with a sharper contraction of 17.1% in the 2Q20. The improved performance largely reflected the impact of the reopening of the economy after the Movement Control Order and better external demand conditions. Although significantly underperforming global equity markets in 2020, the FBMKLCI was up 2.42% after 2 years of losses, likely due to its severe underperformance, attractive valuations, investors' optimism that the global economy is starting to reopen and the Covid-19's vaccine developments.

Chart 6: DJIM25 Index Performance against Local Equity Markets in 2020

Sources: Bloomberg

The Fund's benchmark index, i.e DJIM25 Index, had a positive start to the year but succumbed thereafter to reach its year-low of 802.63 points on 19 March after government announced an implementation of the Movement Control Order (MCO), which began on 18 March as investors feared the economic impact stemming from the lockdown. Bank Negara Malaysia (BNM) also introduced unprecedented forbearance of a 6-month blanket moratorium. The market rallied in the 2Q20 on the back of the announcement of stimulus packages by the governments across the world. US president Donald Trump signed the largest stimulus package in the country's history, amounting to USD2 trillion whilst Malaysia's prime minister unveiled a massive MYR250 billion fiscal stimulus package to rescue the Covid-19 battered economy. Meanwhile, BNM further cut OPR to a record low of 1.75% on 7 July (cumulative 125 basis points cut in 2020) as the country's economy continued to suffer from the pandemic and lockdowns. DJIM25 Index experienced a more volatile trading in the 3Q20 as daily new cases exploded after Sabah's state election, resulting in the government to re-impose conditional MCO to almost all states. DJIM25 Index closed the year at 1,150.09 points, translating to an increase of 17.90% year-on-year. Comparatively, DJIM25 Index was among the top performer for the year, outperforming local equity indices on the back of the strong performance from its key heavyweights particularly gloves stocks.

Looking ahead, global growth in 2021 is expected to show modest pick-up as demand remain stable and governments of major economies adopt fiscal measures to increase domestic investments. Meanwhile, the central banks are expected to remain generally accommodative despite potential upside pressure on inflation. In addition, trade activities are expected to undergo a modest recovery, given the upbeat expectations of a gradual increase in commodity prices, modest pick-up in investments and higher infrastructure spending by major economies i.e. US and China. Amid exceptional uncertainty, International Monetary Fund (IMF) projected global economy to grow 5.5% in 2021 and 4.2% in 2022. The 2021 forecast is reflecting expectations of a vaccine-powered strengthening of activity later in the year and additional policy support in a few large economies.

In Malaysia, GDP is expected to recover in 2021 and to grow in the range of 6.5%-7.5%, as almost all sectors are allowed to operate during MCO while households and businesses are able to adapt quickly to standard operating procedures. Budget 2021, which was expansionary in nature is expected to support businesses and the B40 segment remained the focus. The large allocation for development expenditure was a positive surprise. Against these backdrops, Malaysian equity market is expected to be positive in the near term. With encouraging sentiment coming back into key sectors that drive domestic economic growth, MyETF-DJIM25 which comprised of big-cap stocks as its underlying is likely to be preferred on any market pullbacks.

TRUSTEE REPORT TO THE UNIT HOLDERS OF MyETF DOW JONES ISLAMIC MARKET MALAYSIA TITANS 25

We have acted as Trustee for MyETF Dow Jones Islamic Market Malaysia Titans 25 ("the Fund") for the financial year ended 31 December 2020. To the best of our knowledge, for the financial year under review, i-VCAP Management Sdn. Bhd. ("the Manager") has operated and managed the Fund in accordance with the following:-

- (a) limitations imposed on the investment powers of the Manager and Trustee under the Deed (s), the Securities Commission's Guidelines on Exchange-Traded Funds, the Capital Markets and Services Act 2007 and other applicable laws;
- (b) valuation and pricing of the Fund is carried out in accordance with the Deed(s) of the Fund and any regulatory requirements; and
- (c) creation and cancellation of units for the Fund are carried out in accordance with the Deed(s) of the Fund and applicable regulatory requirements.

We are of the view that the distribution made during the financial year ended 31 December 2020 by the Manager is not inconsistent with the objectives of the Fund.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF MyETF DOW JONES ISLAMIC MARKET MALAYSIA TITANS 25

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of MyETF Dow Jones Islamic Market Malaysia Titans 25 ("the Fund") give a true and fair view of the financial position of the Fund as at 31 December 2020, and of its financial performance and its cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 December 2020, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 26 to 55.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF MyETF DOW JONES ISLAMIC MARKET MALAYSIA TITANS 25

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements of the Fund. In particular, we considered where the Manager made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Fund, the accounting processes and controls, and the industry in which the Fund operates.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Fund for the current year. These matters were addressed in the context of our audit of the financial statements of the Fund as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key audit matters | How our audit addressed the key audit matters |
|--|---|
| <p>Valuation and existence of financial assets at fair value through profit or loss</p> <p>Refer to Note F (Summary of significant accounting policies), Note 9 and Note 21 (Notes to the financial statements).</p> <p>The investment portfolio at the year-end comprised listed equity investments valued at RM 329,667,122.</p> <p>We focused on the valuation and existence of investments because investments represent the most significant element of the net asset value in the financial statements.</p> | <p>We have tested the valuation of the listed equity investments by agreeing the prices used in the valuation to independent third party sources. No misstatements were identified from our testing.</p> <p>We have tested the existence of the investment portfolio by agreeing the holdings for investments to an independent custodian confirmation.</p> |

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF MyETF DOW JONES ISLAMIC MARKET MALAYSIA TITANS 25

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's report but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
MyETF DOW JONES ISLAMIC MARKET MALAYSIA TITANS 25**

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF MyETF DOW JONES ISLAMIC MARKET MALAYSIA TITANS 25

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the Fund for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

This report is made solely to the unit holders of the Fund and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying summary of significant accounting policies and notes to the financial statements form an integral part of these financial statements.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the MyETF Dow Jones Islamic Market Malaysia Titans 25 (“the Fund”) have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, modified by the revaluation of financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the financial year. It also requires the Manager to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note N.

(a) Standards, amendments to published standards and interpretations that are effective

- The Conceptual Framework for Financial Reporting (Revised 2018)
- Amendments to MFRS 101 and MFRS 108 ‘Definition of Material’

The adoption of the above standards, amendments to standards or interpretations did not have a material effect on the financial statements of the Fund.

(b) Standards and amendments that have been issued but not yet effective

- Amendments to MFRS 3 ‘Reference to Conceptual Framework’ (effective 1 January 2022) replace the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework.
- Annual Improvements to MFRSs 2018 – 2020 Cycle (effective for annual periods beginning on or after 1 January 2022).
- Amendments to MFRS 137 ‘onerous contracts—cost of fulfilling a contract’ (effective 1 January 2022) clarify that direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as an allocation of other costs directly related to fulfilling contracts.
- Amendments to MFRS 101 ‘Classification of liabilities as current or non-current’ (effective 1 January 2023) clarify that a liability is classified as non-current if an entity has a substantive right at the end of the reporting period to defer settlement for at least 12 months after the reporting period.

A liability is classified as current if a condition is breached at or before the reporting date and a waiver is obtained after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

B INCOME FROM SHARIAH-COMPLIANT FINANCIAL INSTRUMENTS

Profit income

Profit income from short-term deposits with licensed Shariah-compliant financial institutions are recognised based on effective profit rate method on an accrual basis.

Profit is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Dividend income

Dividend income is recognised on the ex-dividend date, when the right to receive the dividend has been established.

Realised gain or loss on disposal of investments

Realised gain or loss on disposal of quoted securities is accounted for as the difference between the net disposal proceeds and the carrying amount of quoted securities, determined on a weighted average cost basis.

C NON SHARIAH-COMPLIANT INCOME

Any income or distribution received by the Fund from its investment portfolio which relates to profit income or dividend income from fortuitous activities (does not comply with the Shariah principles) of the underlying companies is considered non Shariah-compliant income.

This non Shariah-compliant Income is subject to an income purification process as determined by the Index Provider from time to time and without limitation based on the impure ratio for each component stock as determined by S&P Dow Jones Indices. The non Shariah-compliant income may be distributed to organisations considered beneficial to the public at large which are endorsed by the Shariah Adviser and approved by the Trustee. The amount is recognised as an expense in profit or loss.

D TAXATION

Current tax expense is determined according to the Malaysian tax laws and includes all taxes based upon the taxable profits of the Fund.

E CASH AND CASH EQUIVALENTS

For the purpose of the cash flow statement, cash and cash equivalents comprise cash and bank balances and deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

F FINANCIAL ASSETS AND LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and make decisions. The Fund has not taken the option to irrevocably designate any Shariah-compliant equity securities as fair value through other comprehensive income.

The Fund classifies cash and cash equivalents, and dividends receivable as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding, which are solely payments of principal and interest.

The Fund classifies management fee payable, amount due to Trustee, auditors' remuneration, tax agent's fee, Shariah adviser's fee and payables as other financial liabilities measured at amortised cost.

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition of financial assets subsequently measured at fair value through profit or loss are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9 are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

A financial liability is derecognised when the obligation under the liability is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

The Fund subsequently measures all Shariah-compliant equity investments at fair value. Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit and loss' in the year in which they arise.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

F FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Investments principally consist of Shariah-compliant quoted investments which are initially recognised at fair value and subsequently re-measured at fair value based on the market price quoted on the relevant stock exchanges at the close of the business on the valuation day, where the close price falls within the bid-ask spread. In circumstances where the close price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value. Purchases and sales of Shariah-compliant investments are accounted for on the trade date.

If a valuation based on the market price does not represent the fair value of the securities, for example during the abnormal market conditions or no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by Trustee, the securities are valued as determined in good faith by the Manager, based on the methods and bases approved by the Trustee after appropriate technical consultation.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

(iii) Impairment of financial assets

The Fund measures credit risk and expected credit losses using probability of default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit impaired.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

F FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(iii) Impairment of financial assets (continued)

Qualitative criteria:

The obligor meets unlikeliness to pay criteria, which indicates the obligor is in significant financial difficulty. The Fund considers the following instances:

- the obligor is in breach of financial covenants;
- concessions have been made by the creditor relating to the obligor's financial difficulty;
- it is becoming probable that the obligor will enter bankruptcy or other financial reorganisation; and
- the obligor is insolvent.

Financial instruments that are credit-impaired are assessed on an individual basis.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

G AMOUNT DUE FROM/TO STOCKBROKERS

Amounts due from and to stockbrokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the date of the statement of financial position respectively. The amount due from brokers balance is held for collection.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

If the credit risk increases to the point that it is considered to be credit impaired, profit income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Any contractual payment which is more than 90 days past due is considered credit impaired.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)

H UNIT HOLDERS' CAPITAL

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the redemption of units; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units. In accordance with the Securities Commission's ("SC") Guidelines on Exchange-Traded Funds, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for creations and cancellations.

I PRESENTATION AND FUNCTIONAL CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Fund's presentation and functional currency.

J SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer ("CEO") of the Fund's Manager that undertakes strategic decisions for the Fund.

K DISTRIBUTION

Distributions are at the discretion of the Fund. A distribution to the Fund's unit holders is accounted for as a deduction from realised reserves. A proposed distribution is recognised as a liability in the year in which it is approved by the Board of Directors of the Manager.

The basis for ascertaining income available for distribution by the Fund to its unit holders, which are subject to conditions imposed by the SC, are as follows;

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

K DISTRIBUTION (CONITNUED)

- (i) The distributable income is the net realised income from profit, dividend and other distributions, after deducting the costs/expenses as allowed by the Deed;
- (ii) No adjustment will be made from any realised capital gains or losses as a result of price appreciation or depreciation of the underlying securities;
- (iii) Unrealised income or gains of the Fund will not be distributed to Unit holders and unrealised losses (including capital losses) will not be deducted.

L TRANSACTION COSTS

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

M REALISED AND UNREALISED PORTIONS OF PROFIT OR LOSS AFTER TAX

The analysis of realised and unrealised amount as disclosed in the statement of comprehensive income is prepared in accordance with the SC Guidelines on Exchange-Traded Funds.

N CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgment are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC's Guidelines on Exchange-Traded Funds.

However, the Manager is of the opinion that in applying these accounting policies, no significant judgment was required.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020**

1 INFORMATION ON THE FUND

The Exchange-Traded Fund (the “Fund”) was constituted under the name MyETF Dow Jones Islamic Market Malaysia Titans 25 pursuant to the execution of a trust deed dated 17 January 2008 and supplemental deeds dated 9 December 2016, 19 June 2017, 8 February 2019, and 13 September 2019 (the “Deed”) entered into between i-VCAP Management Sdn. Bhd. (the “Manager”) and Deutsche Trustees Malaysia Berhad (the “Trustee”).

The Fund was launched on 21 January 2008 and will continue its operations until terminated in accordance with Part 25 of the Deed.

The Fund is an exchange traded fund that is designed to provide investment results that closely correspond to the performance of the Dow Jones Islamic Market Malaysia Titans 25 Index (“Benchmark Index”), regardless of its performance. The Benchmark Index is a free float-adjusted, market capitalization weighted index representing securities of 25 leading Shariah-compliant Malaysian companies listed on Bursa Malaysia Securities Berhad. All investments will be subjected to the SC’s Guidelines on Exchange-Traded Funds, the Deed and the objective of the Fund.

As provided in the Deed, the financial year shall end on 31 December 2020.

The Manager is a company incorporated in Malaysia. The principal activity of the Manager is the provision of Shariah investment management services.

On 16 December 2019, the Board of Directors of Valuecap, the immediate holding company of the Manager, has resolved to explore various strategic options with regard to the Manager, including divesting or winding up the Manager and the possibility of transferring the Fund to another licensed fund management company.

On 28 February 2020, the Directors of the Manager have resolved to pursue the sale of the Manager to an unrelated third party.

On 25 August 2020, the sole shareholder has approved the sale of i-VCAP Management Sdn Bhd to Kenanga Investors Berhad.

The sale of the Manager has been approved by the relevant regulatory bodies on 29 January 2021.

These financial statements were authorised for issue by the Manager on 16 February 2021.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk, profit rate risk and credit/default risk from the following financial instruments:

| | Note | Amortised cost | Financial asset at fair value through profit or loss | Total |
|--|-------------|---------------------------|---|--------------------|
| | | RM | RM | RM |
| 2020 | | | | |
| Cash and cash equivalents | 11 | 1,021,641 | - | 1,021,641 |
| Financial assets at fair value through profit or loss | 9 | - | 329,667,122 | 329,667,122 |
| Dividends receivable | 10 | 1,114,635 | - | 1,114,635 |
| Total | | 2,136,276 | 329,667,122 | 331,803,398 |
| 2019 | | | | |
| Cash and cash equivalents | 11 | 699,269 | - | 699,269 |
| Financial assets at fair value through profit or loss | 9 | - | 293,717,274 | 293,717,274 |
| Dividends receivable | 10 | 40,782 | - | 40,782 |
| Total | | 740,051 | 293,717,274 | 294,457,325 |

All current liabilities are financial liabilities which are carried at amortised cost.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the SC's Guidelines on Exchange-Traded Funds.

Market risk

Price Risk

The Fund is exposed to equity securities price risk arising from investments held by the Fund for which prices in the future are uncertain. The very nature of an exchange-traded fund, however, helps mitigate this risk because a fund would generally hold a well-diversified portfolio of securities from different market sectors so that the collapse of any one security or any one market sector would not impact too greatly on the value of the fund.

The fair value of equities exposed to price risk was as follows:

| | 2020 RM | 2019 RM |
|---|--------------------|--------------------|
| Financial assets at fair value through profit or loss | 329,667,122 | 293,717,274 |

The table below summarises the sensitivity of the Fund's unrealized income or loss to equity price movements as at the end of the financial year. The analysis is based on the assumptions that the Benchmark Index increased by 10% and decreased by 10%, with all other variables held constant, and that the fair value of the Fund's portfolio of equity securities moved in correlation with the Index.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (continued)

Price Risk (continued)

| % Change in benchmark index | Benchmark index | Market value RM | Impact to profit after tax/NAV RM |
|-----------------------------|-----------------|--------------------|---|
| <u>2020</u> | | | |
| -10% | 1,035.08 | 296,814,347 | (32,852,775) |
| 0% | 1,150.09 | 329,667,122 | - |
| 10% | 1,265.10 | 362,519,897 | 32,852,775 |
| <u>2019</u> | | | |
| -10% | 877.92 | 264,974,102 | (28,743,172) |
| 0% | 975.47 | 293,717,274 | - |
| 10% | 1,073.02 | 322,460,446 | 28,743,172 |

The Index is used as a benchmark as the Fund is designed to provide investment results that closely correspond to the performance of the Index.

Profit rate risk

Cash flow profit rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates.

The Fund's exposure to profit rate risk is mainly confined to Shariah-compliant deposits with licensed banks. The Manager overcomes this by way of maintaining deposits on a short term basis.

The Fund's exposure to profit rate risk associated with Shariah-compliant deposits with licensed banks is not material as the deposit is held on a short-term basis.

Credit/Default risk

The Fund is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions. The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Exchange-Traded Funds.

The settlement terms of the amount due from stockbrokers are governed by the relevant rules and regulations of the respective stock exchanges.

The maximum exposure to credit risk before any credit enhancements as at the end of the financial year is the carrying amount of the financial assets as set out below:

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit/Default risk (continued)

| | Cash and cash equivalents RM | Dividends receivable RM | Total RM |

| | <u>699,269</u> | <u>40,782</u> | <u>740,051</u> |

3 CAPITAL AND LIQUIDITY RISK MANAGEMENT

The capital of the Fund is represented by the net assets attributable to unit holders as shown in the Statement of Financial Position. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily creations and cancellations of units at the discretion of unit holders. The Manager will provide perfect basket which comprises a portfolio of the Benchmark Index shares in substantially the same composition and weighting as the Benchmark Index and cash component to be delivered by the investors in the case of creations and to be transferred to the unit holders in the case of cancellations. The Fund maintains sufficient quantity of shares and cash in proportion to the perfect basket.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. The amounts in the table below are the contractual undiscounted cash flows.

| | Within one month RM | One month to one year RM | Total RM |
|--------------------------------|------------------------------------|---|---------------------|

4 MANAGEMENT FEE

The Manager is entitled to a management fee at a rate not exceeding 1.0% per annum on the Net Asset Value ("NAV") of the Fund calculated on a daily basis, as provided under Clause 14.1 of the Deed.

For the financial year ended 31 December 2020, the management fee was recognised at a rate of 0.4% (2019: 0.4%) per annum on the NAV of the Fund, calculated on a daily basis.

There will be no further liability to the Manager in respect of management fee other than the amounts recognised above.

5 TRUSTEE'S FEE

The Trustee is entitled to an annual fee at a rate not exceeding 0.08% per annum on the Net Asset Value ("NAV") of the Fund, as provided under Clause 14.2 of the Deed.

For the financial year ended 31 December 2020, the Trustee's fee was recognised at a rate of 0.05% (2019: 0.05%) per annum on the NAV of the Fund, inclusive of local custodian fee, calculated on a daily basis.

There will be no further liability to the Trustee in respect of trustee fee other than the amounts recognised above.

6 LICENSE FEE

License fee is payable to S&P Dow Jones Indices LLC, the Benchmark Index provider.

For the financial year ended 31 December 2020, the License Fee was recognised at a rate of 0.04% (2019: 0.04%) per annum of the Net Asset Value ("NAV") of the Fund, calculated on a daily basis.

There will be no further liability to S&P Dow Jones Indices LLC in respect of license fee other than the amounts recognised above.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

7 TAXATION

| | <u>2020</u> RM | <u>2019</u> RM |
|-------------------------------------|---------------------------------|---------------------------------|
| Tax charged for the financial year: | | |
| - Current taxation | - | - |
| | <u> </u> | <u> </u> |

The explanation of the relationship between taxation and loss before taxation of the Fund is as follows:

| | <u>2020</u> RM | <u>2019</u> RM |
|--|---------------------------------|---------------------------------|
| Profit before taxation | 53,704,837 | 3,854,398 |
| Tax at Malaysian statutory rate of 24% (2019: 24%) | 12,889,161 | 925,056 |
| Tax effect of: | | |
| Investment income not subject to tax | (13,325,167) | (1,366,496) |
| Restriction on tax deductible expenses for exchange-traded funds | 304,742 | 262,667 |
| Expenses not deductible for tax purposes | 131,264 | 178,773 |
| | <u> </u> | <u> </u> |
| | <u> </u> | <u> </u> |

8 INCOME DISTRIBUTION

Distribution to unit holders is from the following sources:

| | <u>2020</u> RM | <u>2019</u> RM |
|---|---------------------------------|---------------------------------|
| Undistributed net exempt income brought forward | 4,704,190 | 6,731,960 |
| Total amount of income distribution | <u>4,704,190</u> | <u>6,731,960</u> |

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

8 INCOME DISTRIBUTION (CONTINUED)

The net asset value per unit prior and subsequent to the income distribution was as follows:

| <u>Distribution date (ex-date)</u> | <u>Cum-distribution RM</u> | <u>Distribution per unit RM</u> | <u>Ex-distribution RM</u> |
|--|--------------------------------|---|-------------------------------|
| <u>2020</u> | | | |
| 11 March 2020 | 1.0079 | 0.0181 | 0.9898 |
| <u>2019</u> | | | |
| 11 March 2019 | 1.0917 | 0.0244 | 1.0673 |

The net asset value prior and subsequent to the income distribution was as follows:

| <u>Distribution date (ex-date)</u> | <u>Cum-distribution RM</u> | <u>Total distribution amount RM</u> | <u>Ex-distribution RM</u> |
|--|--------------------------------|---|-------------------------------|
| <u>2020</u> | | | |
| 11 March 2020 | 261,944,626 | 4,704,190 | 257,240,436 |
| <u>2019</u> | | | |
| 11 March 2019 | 301,188,809 | 6,731,960 | 294,456,849 |

Included in the above is an amount of RM4,704,190 distributed from previous financial year's undistributed net realised exempt income.

The first and final income distribution for the financial year ended 31 December 2019 of 1.81 sen per unit was declared on 25 February 2020 based on the financial position of the Fund as at 31 December 2019 with the ex-date of 11 March 2020 and entitlement date of 12 March 2020. The total amount of income distributed was RM4,704,190 based on 259,900,000 of the Fund's units in circulation, which was paid out to unit holders on 9 April 2020.

The first and final income distribution for the financial year ended 31 December 2018 of 2.44 sen per unit was declared on 21 February 2019 based on the financial position of the Fund as at 31 December 2018 with the ex-date of 11 March 2019 and entitlement date of 13 March 2019. The total amount of income distributed was RM6,731,960 based on 275,900,000 of the Fund's units in circulation, which was paid out to unit holders on 8 April 2019.

There is no interim income distribution declared for the financial year ended 31 December 2020.

10 DIVIDENDS RECEIVABLE

Dividends receivable represents dividends declared on the Fund's component stocks at the ex-date and not yet received at the end of the financial year.

Dividends declared are recognised on the ex-date and are reversed out from the receivables upon receipt by the Fund.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

11 CASH AND CASH EQUIVALENTS

| | <u>2020</u> RM | <u>2019</u> RM |
|--|---------------------------------|---------------------------------|
| Shariah compliant deposits with licensed banks | 941,713 | 628,346 |
| Cash at bank – From Shariah-compliant income | 29,812 | 39,574 |
| Cash at bank – From non Shariah-compliant income | 50,116 | 31,349 |
| | <u>1,021,641</u> | <u>699,269</u> |

The weighted average effective profit rate of short term deposits per annum as at the date of the statement of financial position is as follows:

| | <u>2020</u> %p.a. | <u>2019</u> %p.a. |
|--|------------------------------------|------------------------------------|
| Shariah compliant deposits with licensed banks | <u>1.72</u> | <u>2.95</u> |

As at the end of financial year ended 31 December 2020, Shariah-compliant deposits with a licensed bank of the Fund have a weighted average maturity period of 5 days (2019: 3 days) and are denominated in Ringgit Malaysia.

12 PAYABLES

| | <u>2020</u> RM | <u>2019</u> RM |
|--|---------------------------------|---------------------------------|
| Amount due to index licensor | 69,897 | 113,819 |
| Amount due to beneficial organisations (Note 13) | 79,553 | 31,349 |
| Payables | 16,827 | 44,097 |
| | <u>166,277</u> | <u>189,265</u> |

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

13 AMOUNT DUE TO BENEFICIAL ORGANISATIONS

Amount due to beneficial organisations are the non Shariah-compliant income portion of dividends received and receivable as at 31 December. It comprises the following amounts:

| | <u>2020</u> RM | <u>2019</u> RM |
|---|-------------------|-------------------|
| Cash at bank – non Shariah-compliant income | 50,116 | 31,349 |
| Dividend receivables - non Shariah-compliant income | 29,437 | - |
| | <u>79,553</u> | <u>31,349</u> |

Cash at bank – non Shariah-compliant income represents the portion of dividends already received during the financial period which relates to income that does not comply with Shariah principles.

14 NUMBER OF UNITS IN CIRCULATION AND NET ASSETS ATTRIBUTABLE TO UNIT HOLDERS

Net asset value attributable to unit holders is represented by:

| | <u>Note</u> | <u>2020</u> RM | <u>2019</u> RM |

| | <u>194,671,820</u> | <u>100.00</u> | <u>233,637</u> | <u>100.00</u> |

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

16 UNITS HELD BY THE MANAGER AND PARTIES RELATED TO THE MANAGER

The related parties of and their relationship with the Fund are as follows:

| <u>Related parties</u> | <u>Relationship</u> |
|---|--------------------------------|
| i-VCAP Management Sdn. Bhd. | The Manager |
| Valuecap Sdn. Bhd. ("Valuecap") | Holding company of the Manager |
| Shareholders of Valuecap with significant influence on Valuecap | Shareholders of Valuecap |

(a) Units held by the Manager and parties related to the Manager

| | <u>2020</u> | | <u>2019</u> | |
|--------------------------|---------------------|--------------------|---------------------|--------------------|
| | <u>No. of Units</u> | <u>RM</u> | <u>No. of Units</u> | <u>RM</u> |
| The Manager | - | - | 841,800 | 924,212 |
| Valuecap | - | - | 8,300,000 | 9,112,570 |
| Shareholders of Valuecap | 251,523,534 | 323,786,245 | 252,037,534 | 276,712,009 |
| | <u>251,523,534</u> | <u>323,786,245</u> | <u>261,179,334</u> | <u>286,748,791</u> |

The units are held legally by the Manager for booking purposes. The units are held beneficially by Valuecap and the shareholders of Valuecap.

17 MANAGEMENT EXPENSE RATIO ("MER")

| | <u>2020</u> | <u>2019</u> |
|-----|-------------|-------------|
| | <u>%</u> | <u>%</u> |
| MER | 0.54 | 0.52 |

MER is derived from the following calculation:

$$\text{MER} = \frac{(A + B + C + D + E + F + G)}{H} \times 100$$

| | | |
|---|---|--|
| A | = | Management fee |
| B | = | Trustee's fee |
| C | = | License fee |
| D | = | Auditors' remuneration |
| E | = | Tax agent's fee |
| F | = | Shariah adviser's fee |
| G | = | Other expenses (excluding sales and services tax on transaction costs) |
| H | = | Average net asset value of Fund calculated on daily basis |

The average net asset value of the Fund for the financial year calculated on a daily basis is RM313,494,443 (2019: RM296,083,307).

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

18 PORTFOLIO TURNOVER RATIO ("PTR")

| | <u>2020</u> | <u>2019</u> |
|-------------|--------------------|--------------------|
| PTR (times) | 0.14 | 0.35 |

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average net asset value of the Fund for the financial year calculated on daily basis}}$$

where: total acquisition for the financial year = RM36,741,469 (2019: RM96,810,833)
total disposal for the financial year = RM48,257,796 (2019: RM109,636,320)

19 SEGMENT REPORTING

The Fund is designed to provide investment results that closely correspond to the performance of the Benchmark Index. The Manager attempts to achieve a tracking error of less than 3% between the net asset value of the Fund and the Benchmark Index.

The internal reporting provided to the CEO for the fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS. The CEO is responsible for the performance of the Fund and considers the business to have a single operating segment.

The Fund has a diversified unit holder population. However, as at 31 December 2020, there were 2 unit holders (2019: 2 unit holders) who held more than 10% of the Fund's NAV. The unit holdings were 38.86% and 30.17% (2019: 39.72% and 37.33%).

The investment objective of the Fund is to provide investments results that, before expenses, closely correspond to the performance of the Dow Jones Islamic Market Malaysia Titans 25 Index, regardless of its performance.

There were no changes in the reportable segments during the financial year.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

20 NON CASH TRANSACTIONS

Creations and cancellations are done by transferring the perfect basket from and to the unit holders respectively. A reconciliation of the cash flows used in creation and cancellation and the total creation and cancellation as presented in the statement of changes in equity is presented below:

| | <u>2020</u> RM | <u>2019</u> RM |
|--|-------------------|-------------------|
| Cancellation | | |
| - Fair value of benchmark index shares | 10,476,263 | 8,665,776 |
| - Cash component | 1,173,737 | 5,784 |
| | <u>11,650,000</u> | <u>8,671,560</u> |

21 FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the period end date.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

21 FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

(i) Fair value hierarchy (continued)

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

| | <u>Level 1</u> RM | <u>Level 2</u> RM | <u>Level 3</u> RM | <u>Total</u> RM |
|---|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| <u>2020</u> | | | | |
| Financial assets at fair value through profit or loss | | | | |
| - Shariah-compliant quoted securities | 329,667,122 | - | - | 329,667,122 |
| | <u> </u> | <u> </u> | <u> </u> | <u> </u> |
| <u>2019</u> | | | | |
| Financial assets at fair value through profit or loss | | | | |
| - Shariah-compliant quoted securities | 293,717,274 | - | - | 293,717,274 |
| | <u> </u> | <u> </u> | <u> </u> | <u> </u> |

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include quoted shares. The Fund does not adjust the quoted prices for these instruments.

- (ii) The carrying values of cash and cash equivalents, dividends receivable and all current liabilities are a reasonable approximation of the fair values due to their short term nature.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020 (CONTINUED)**

22 SIGNIFICANT EVENT DURING THE FINANCIAL YEAR

On 16 December 2019, the Board of Directors of Valuecap, the immediate holding company of the Manager, has resolved to explore various strategic options with regard to the Manager, including divesting or winding up the Manager and the possibility of transferring the Fund to another licensed fund management company.

On 28 February 2020, the Directors of the Manager have resolved to pursue the sale of the Manager to an unrelated third party.

On 25 August 2020, the sole shareholder has approved the sale of i-VCAP Mangement Sdn Bhd to Kenanga Investors Berhad.

Covid-19

The worsening macro-economic outlook as a result of Covid-19, both domestically and globally, may result in the deterioration of the Fund's Net Asset Value/unit in future periods.

The Manager is monitoring the situation closely and will be actively managing the portfolio to achieve the Fund's objective.

23 SUBSEQUENT EVENTS AFTER THE FINANCIAL YEAR

The sale of the Manager has been approved by the relevant regulatory bodies on 29 January 2021.

DIRECTORS' TRAINING

i-VCAP strongly supports the development of its Board members by encouraging their participations in continuous education programmes in meeting the regulatory requirements and to keep abreast with the developments in the industry. However, in the wake of the Covid-19 pandemic which had impacted the global population throughout year 2020, there were limitations with regards to conducting in-house training programmes, while relevant programmes being offered by the external training providers had also been adversely affected. Nevertheless, the Board members had duly played their roles and taken their own initiatives to attend the online courses as well as through self-learning, in keeping themselves updated to the latest requirements and development in the industry.

The training programmes attended by the Directors for FY2020 are as follows:

| Director | Programme Attended | Date | Organising Company |

TRUSTEE'S DELEGATE

The trustee has appointed Deutsche Bank (Malaysia) Berhad ("DBMB") as the custodian of the Fund assets. DBMB is a wholly-owned subsidiary of Deutsche Bank AG. DBMB offers its clients access to a growing domestic custody network that covers over 30 markets globally and a unique combination of local expertise backed by the resources of a global bank. In its capacity as the appointed custodian, DBMB's roles encompass safekeeping of the Fund assets, trade settlement management, corporate actions notification and processing, securities holding and cash flow reporting, and income collection and processing. All investments of the Fund are registered in the name of the Trustee for the Fund, or where the custodial function is delegated, in the name of the custodian to the order of the Trustee for the Fund. As custodian, DBMB shall act only in accordance with instructions from the Trustee.
